

Discovering the palmer penguins

CHINSTRAP!

GENTOO!

ADÉLIE!

Recitation week 1

19/10/2023

Res. Asst. Mücahit ZOR

@allison_horst

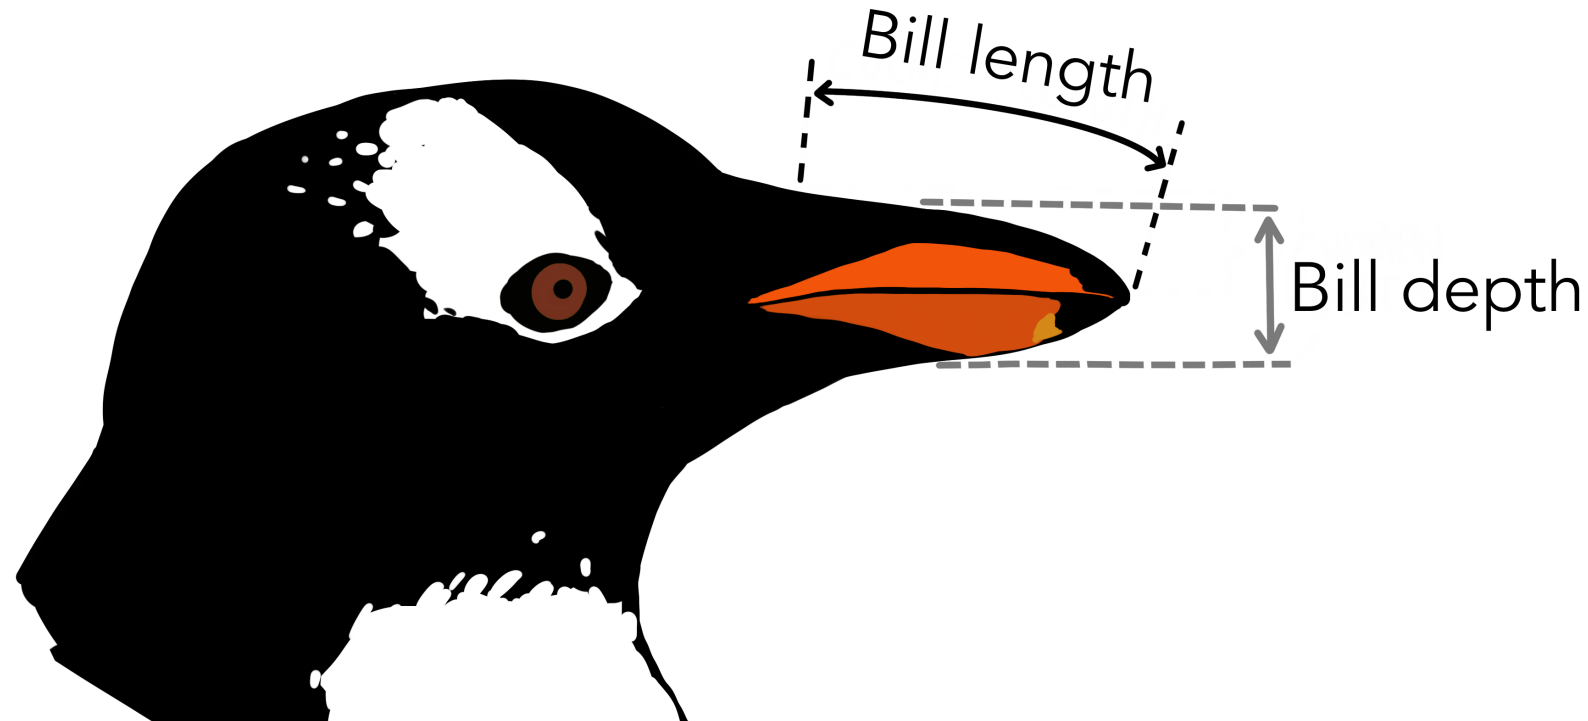

Data

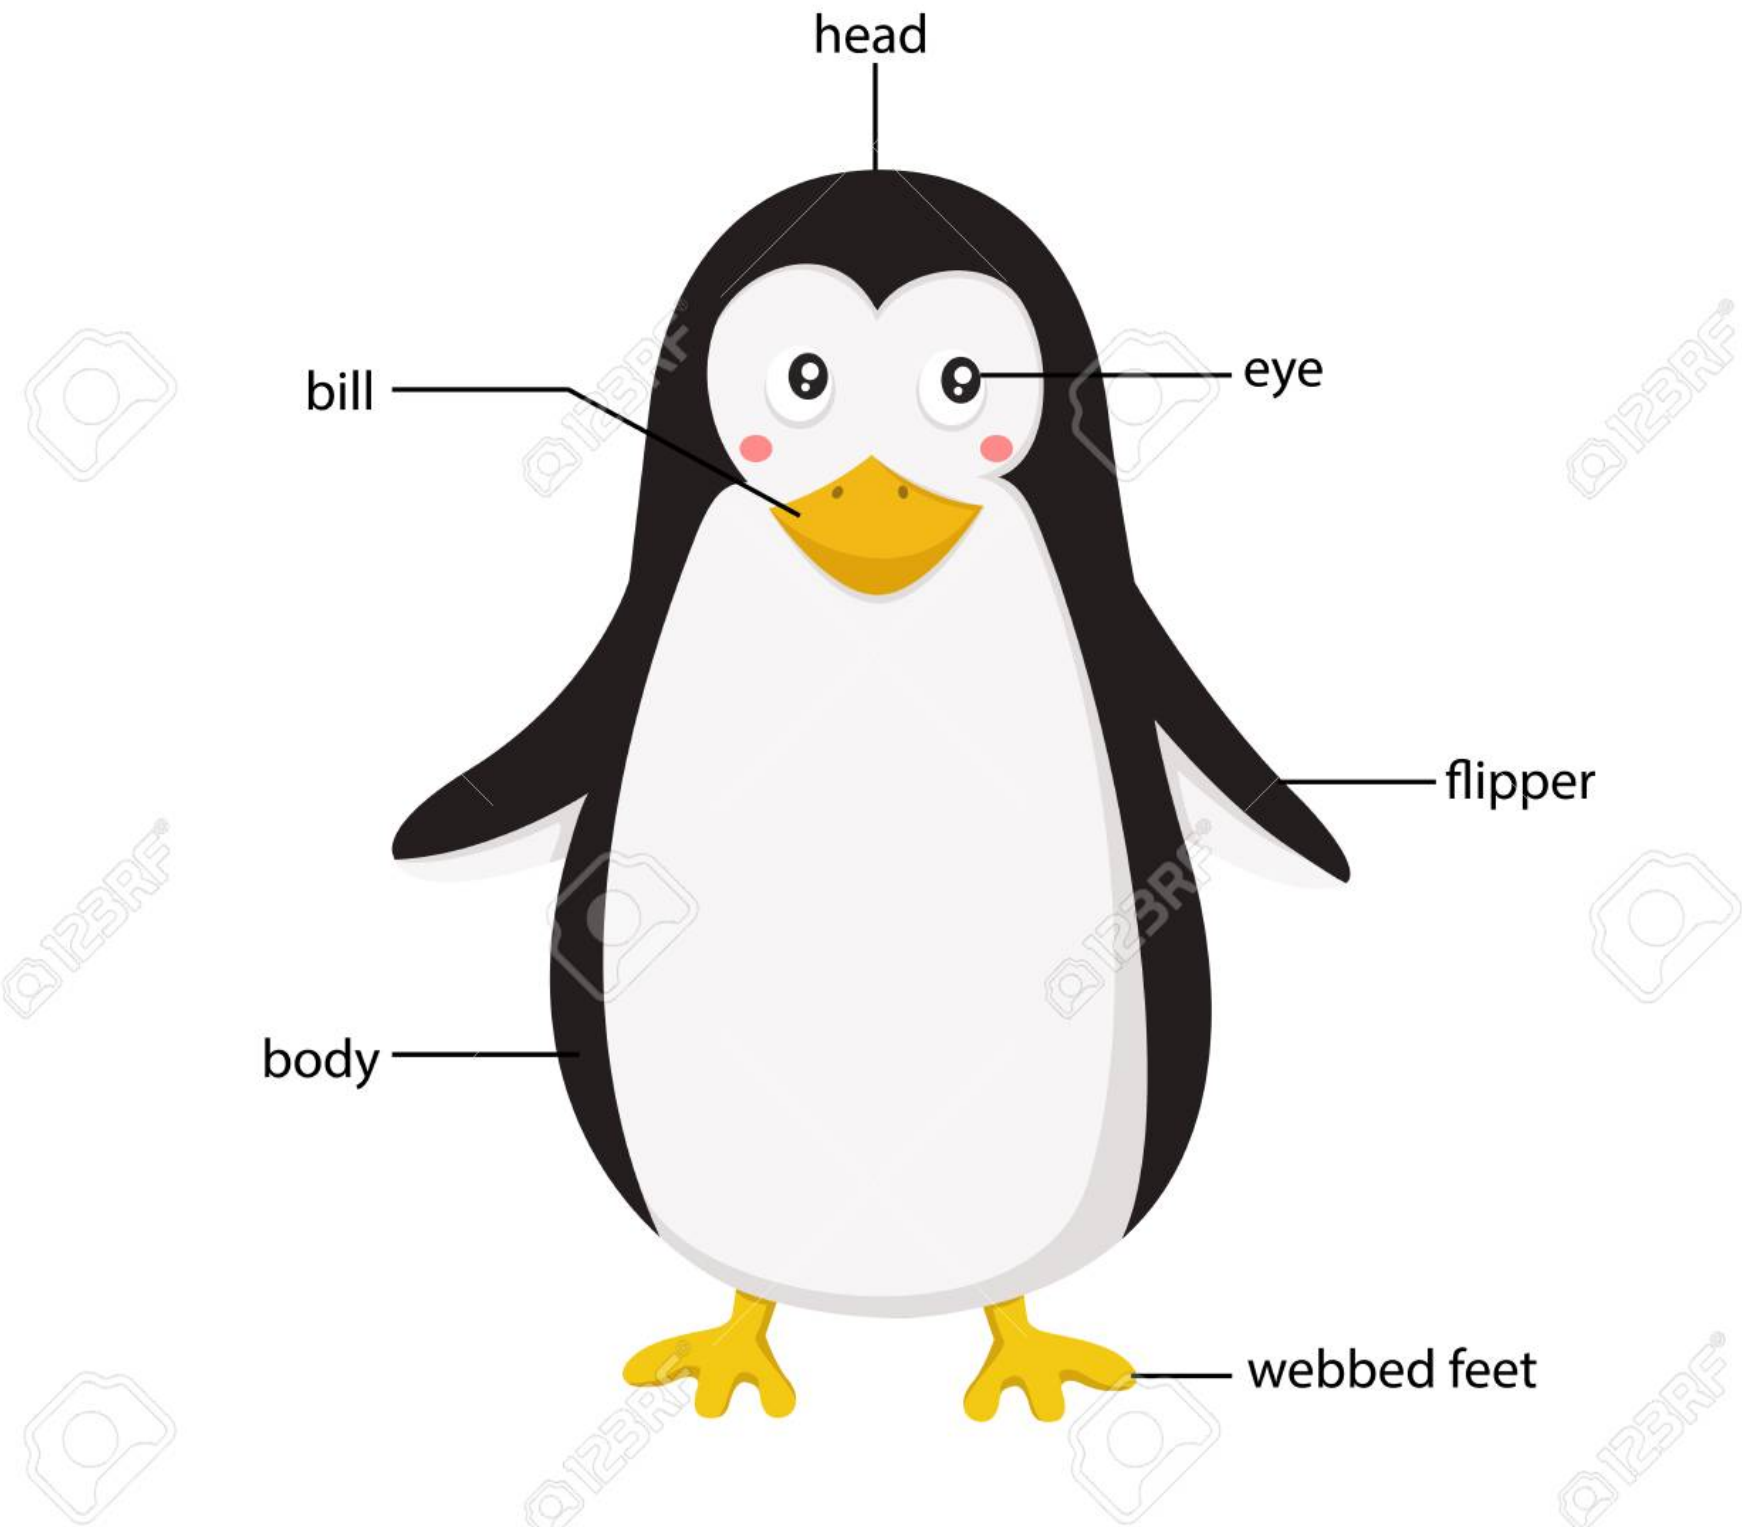

First things first

- Load the data to Google Drive.
 - Open it with Google Sheets
 - Make sure the language of Google Sheets is English
- Make column (variable) names stand out (bold, background color)
- Freeze the first row
- Look around in the data!

Know your penguins!

Body Parts of Penguin

QUESTIONS

warming up...

- What are the variables?

QUESTIONS

warming up...

- What are the variables?
 - Their types?
- What is the number of observations? => (how many penguins do we have?)

QUESTIONS

warming up...

- What are the variables?
 - Their types?
- What is the number of observations? => (how many penguins do we have?)
- What are the {range, mean, median, standard deviation} of the numeric variables? **Column Stats**

QUESTIONS

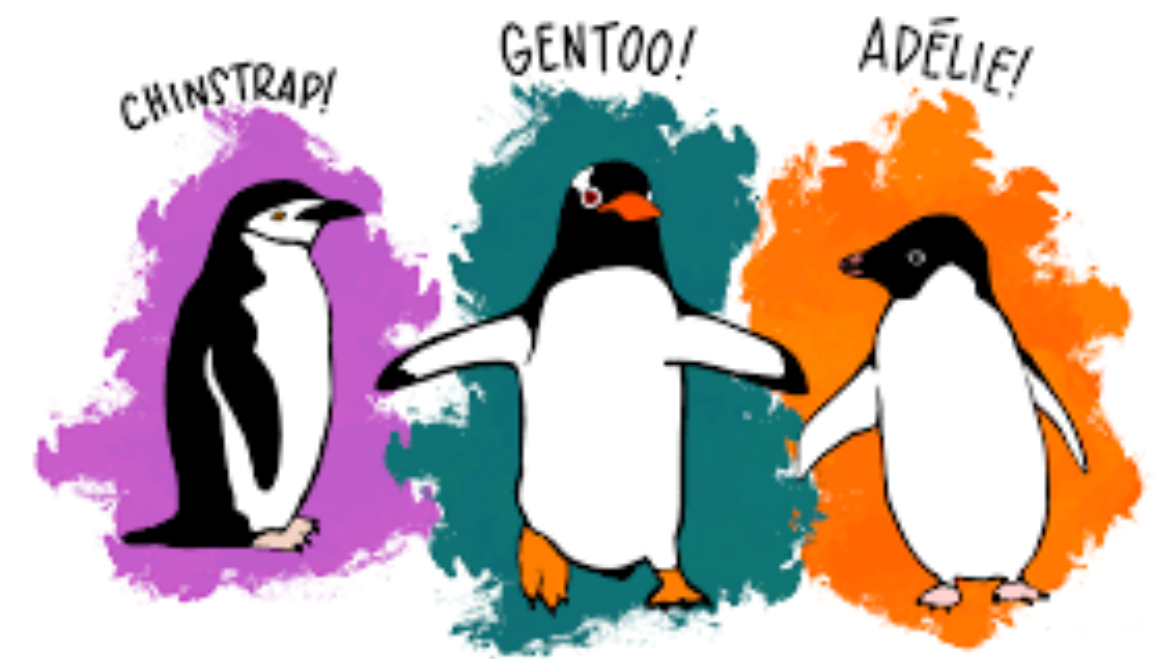

warming up...

- What are the variables?
 - Their types?
- What is the number of observations? => (how many penguins do we have?)
- What are the {range, mean, median, standard deviation} of the numeric variables? **Column Stats**
- What are the levels(unique values) of categorical variables?(what different values do your categorical variables take)

QUESTIONS

level: easy
From: Column stats

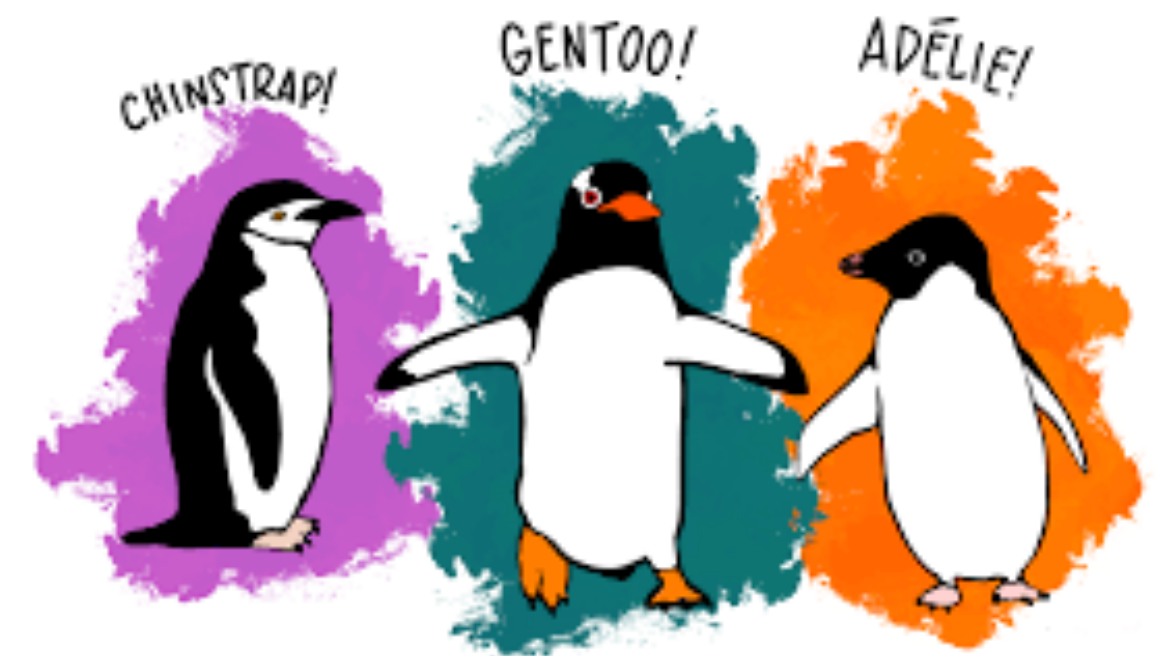

- How many penguins do we have?

QUESTIONS

level: easy
From: Column stats

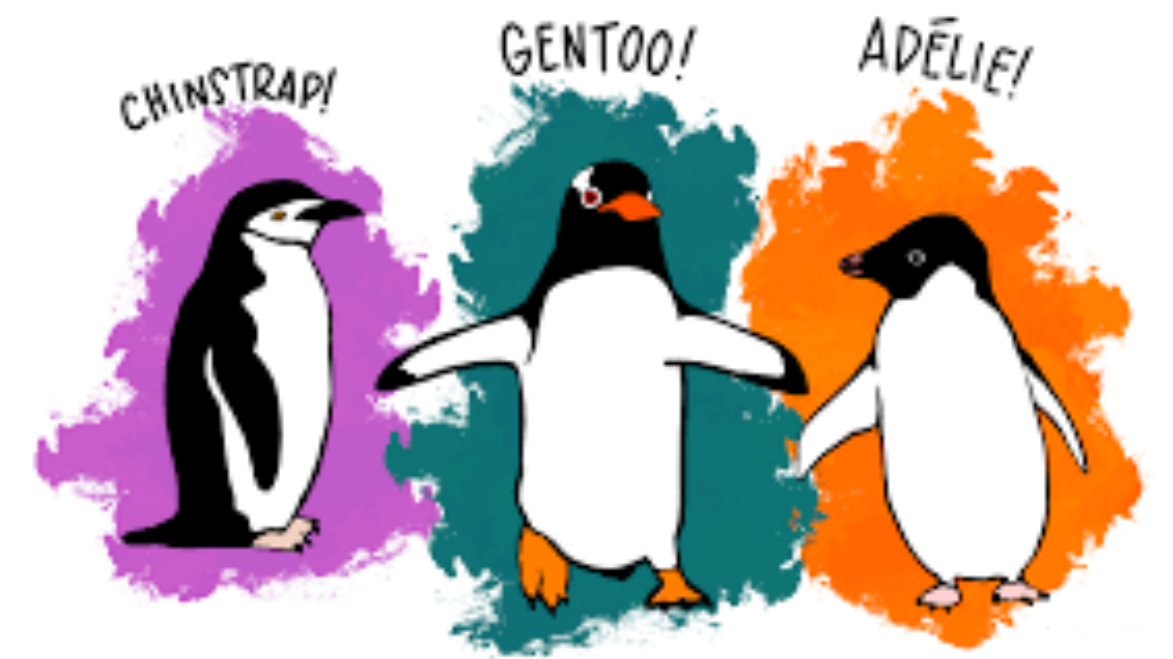

- How many penguins do we have?
- Which specie has the highest number of penguins?

QUESTIONS

level: easy
From: Column stats

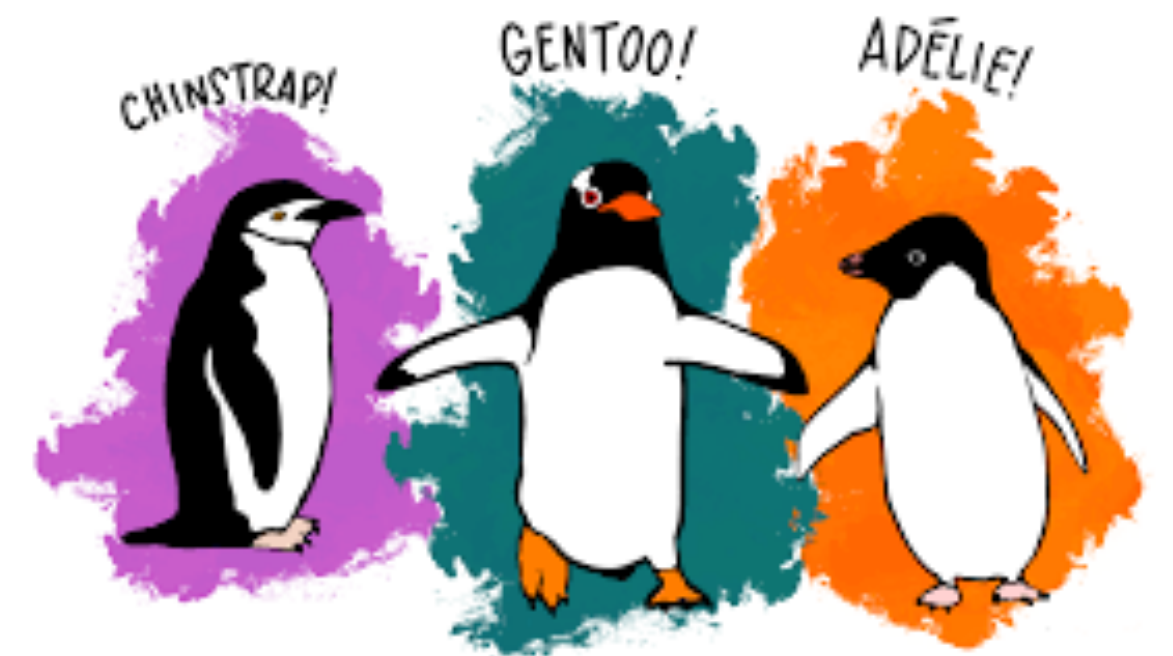

- How many penguins do we have?
- Which specie has the highest number of penguins?
- Average of flipper_length

QUESTIONS

level: easy
From: Column stats

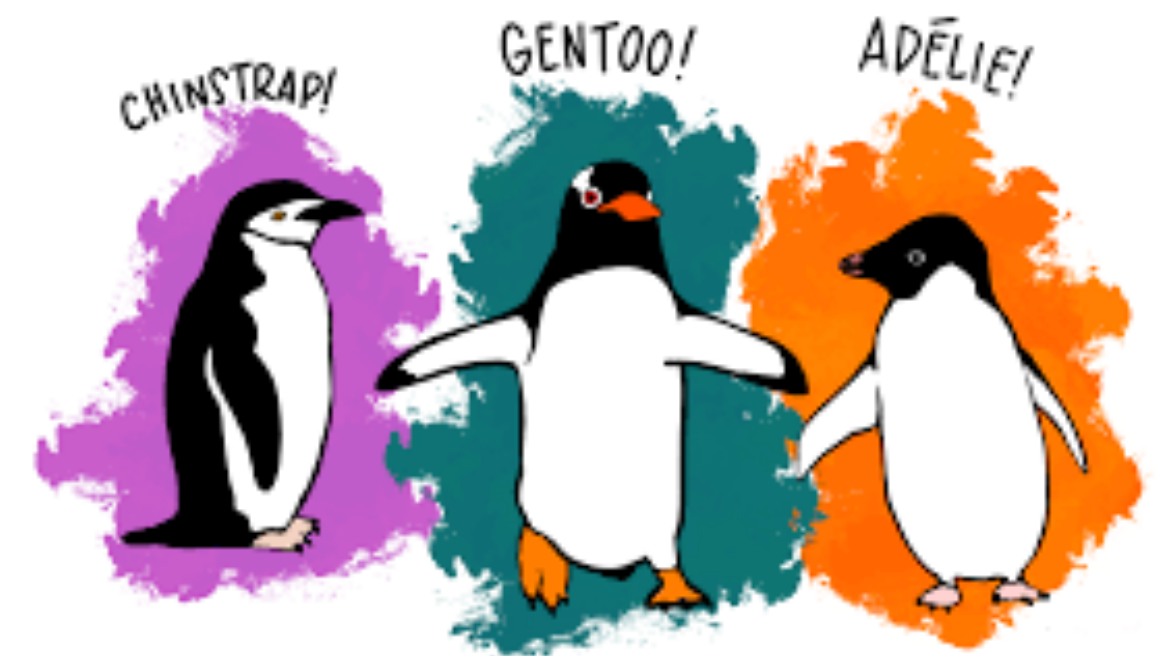

- How many penguins do we have?
- Which specie has the highest number of penguins?
- Average of flipper_length
- Median value of body mass

QUESTIONS

level: easy
From: Column stats

- How many penguins do we have?
- Which specie has the highest number of penguins?
- Average of flipper_length
- Median value of body mass
- Range of bill_length

Questions

Level: intermediate
From: Pivot Table

- Do **male** penguins **have higher body mass** than **female** penguins on **average**?
- Did **Gentoo** penguins **weighted** more in **2009** compared to **2020**?
- What is the **median value for all numeric variables** for each **specie**?
- Which **island** do we have the least **number of penguins**?
 - What percentage do they account for?
- How many **female** and how many **male** penguins do we have?
 - What percentage of the penguins are female?

Pivot Table

- Pivot tables summarise data

Pivot Table

- Pivot tables summarise data
- You put columns to **Rows**, **Columns**, and **Values**

Pivot Table

- Pivot tables summarise data
- You put columns to **Rows**, **Columns**, and **Values**
 - Average body weight of females and males that comes from different islands?

Pivot Table

- Pivot tables summarise data
- You put columns to **Rows**, **Columns**, and **Values**
 - Average body weight of females and males that comes from different islands?
- **Rows:** about what do you want to calculate statistics?.
 - Always categorical or nominal. **No numeric variables in rows!**

Pivot Table

- Pivot tables summarise data
- You put columns to **Rows**, **Columns**, and **Values**
 - Average body weight of **females and males** that comes from **different islands**?
- **Rows**: about what do you want to calculate statistics?.
 - Always categorical or nominal. **No numeric variables in rows!**

Pivot Table

- Pivot tables summarise data
- You put columns to **Rows**, **Columns**, and **Values**
 - Average body weight of **females and males** that comes from **different islands**?
- **Rows**: about what do you want to calculate statistics?.
 - Always categorical or nominal. **No numeric variables in rows!**
- **Values**: what do you want to calculate about rows?
 - **usually** numeric.

Pivot Table

- Pivot tables summarise data
- You put columns to **Rows**, **Columns**, and **Values**
 - **Average body weight** of **females and males** that comes from **different islands**?
- **Rows**: about what do you want to calculate statistics?.
 - Always categorical or nominal. **No numeric variables in rows!**
- **Values**: what do you want to calculate about rows?
 - **usually** numeric.

Pivot Table

- Average body weight of females and males that comes from different islands?

Pivot Table

- Average body weight of females and males that comes from different islands?
- Try putting one of the row variables to Column

Pivot Table

- Average body weight of females and males that comes from different islands?
- Try putting one of the row variables to Column
- If you have more than one Rows, put some of them to Column

Pivot Table

- Average body weight of females and males that comes from different islands?
- Try putting one of the row variables to Column
- If you have more than one Rows, put some of them to Column
- **Remember**
 - Your categorical variables will go to either rows or columns
 - Numeric variables to values

Pivot Table

- Average body weight of females and males that comes from different islands?
- Try putting one of the row variables to Column
- If you have more than one Rows, put some of them to Column
- **Remember**
 - Your categorical variables will go to either rows or columns
 - Numeric variables to values
- Now finish with style: Plot what we found

Questions

Level: intermediate

From: Pivot Table

- Do male penguins have higher body mass than female penguins on average?

Questions

Level: intermediate
From: Pivot Table

- Do **male** penguins **have higher body mass** than **female** penguins on **average**?
- Did **Gentoo** penguins **weighted** more in **2009** compared to **2020**?

Questions

Level: intermediate
From: Pivot Table

- Do male penguins have higher body mass than female penguins on average?
- Did Gentoo penguins weighted more in 2009 compared to 2020?
- What is the median value for all numeric variables for each specie?

Questions

Level: intermediate
From: Pivot Table

- Do **male** penguins **have higher body mass** than **female** penguins on **average**?
- Did **Gentoo** penguins **weighted** more in **2009** compared to **2020**?
- What is the **median value for all numeric variables** for each **specie**?
- Which **island** do we have the least **number of penguins**?

Questions

Level: intermediate
From: Pivot Table

- Do male penguins have higher body mass than female penguins on average?
- Did Gentoo penguins weighted more in 2009 compared to 2020?
- What is the median value for all numeric variables for each specie?
- Which island do we have the least number of penguins?
 - What percentage do they account for?

Questions

Level: intermediate
From: Pivot Table

- Do male penguins have higher body mass than female penguins on average?
- Did Gentoo penguins weighted more in 2009 compared to 2020?
- What is the median value for all numeric variables for each specie?
- Which island do we have the least number of penguins?

 - What percentage do they account for?
- How many **female** and how many **male** penguins do we have?
 - What percentage of the penguins are female?

Questions

level: easy-intermediate

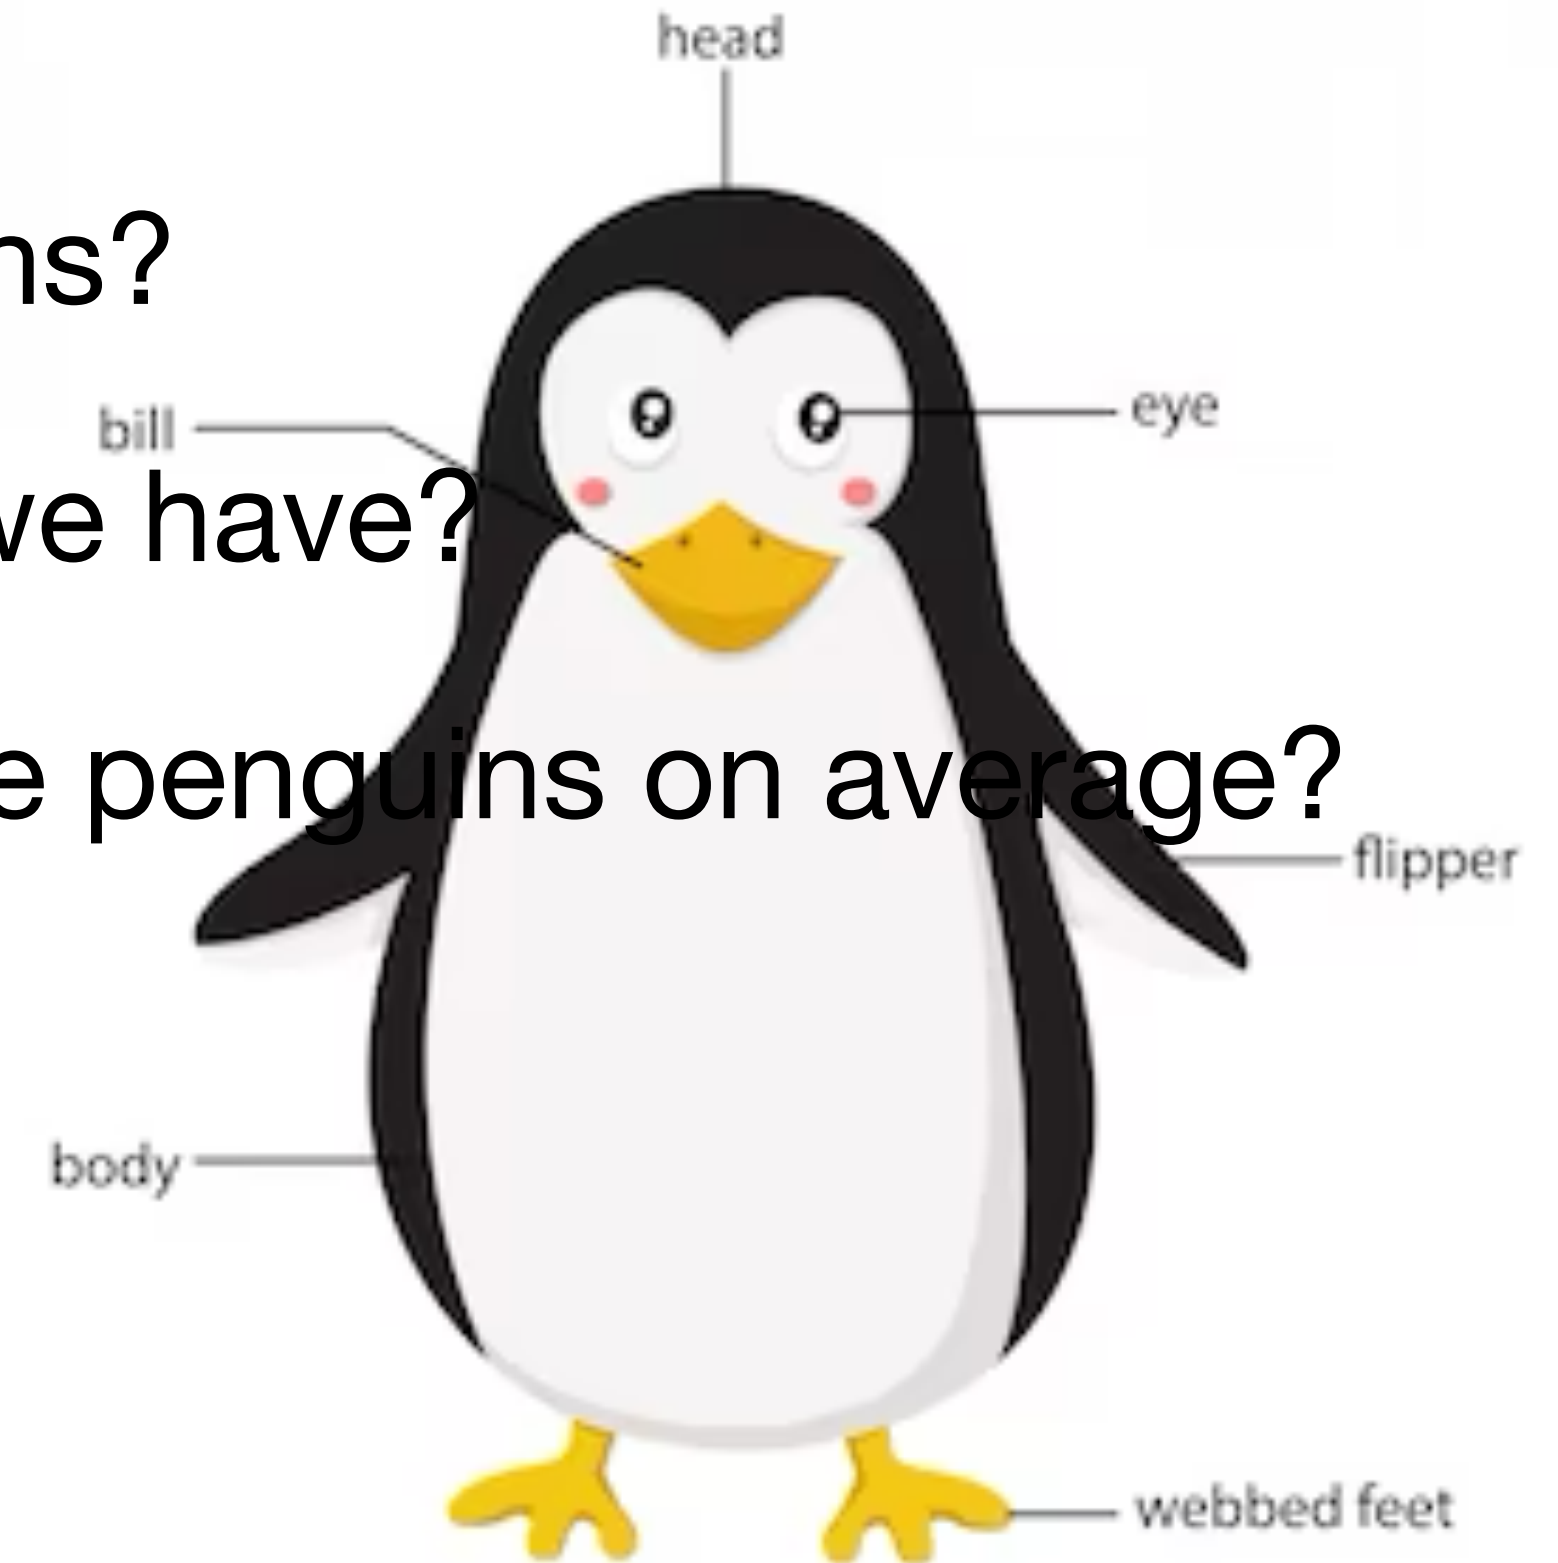

- Which island do we have the least number of penguins?
- How many female and how many male penguins do we have?
- Do male penguins have higher body mass than female penguins on average?

Questions

level: easy-intermediate

- Which island do we have the least number of penguins?
- How many female and how many male penguins do we have?
- Do male penguins have higher body mass than female penguins on average?
- Which specie seems like the most talkative?
 - => bill length

Body Parts of Penguin

Questions

level: easy-intermediate

- Which island do we have the least number of penguins?
- How many female and how many male penguins do we have?
- Do male penguins have higher body mass than female penguins on average?
- Which specie seems like the most talkative?
 - => bill length
- Imagine there is a horon competition in Antartica level : intermediate - hard

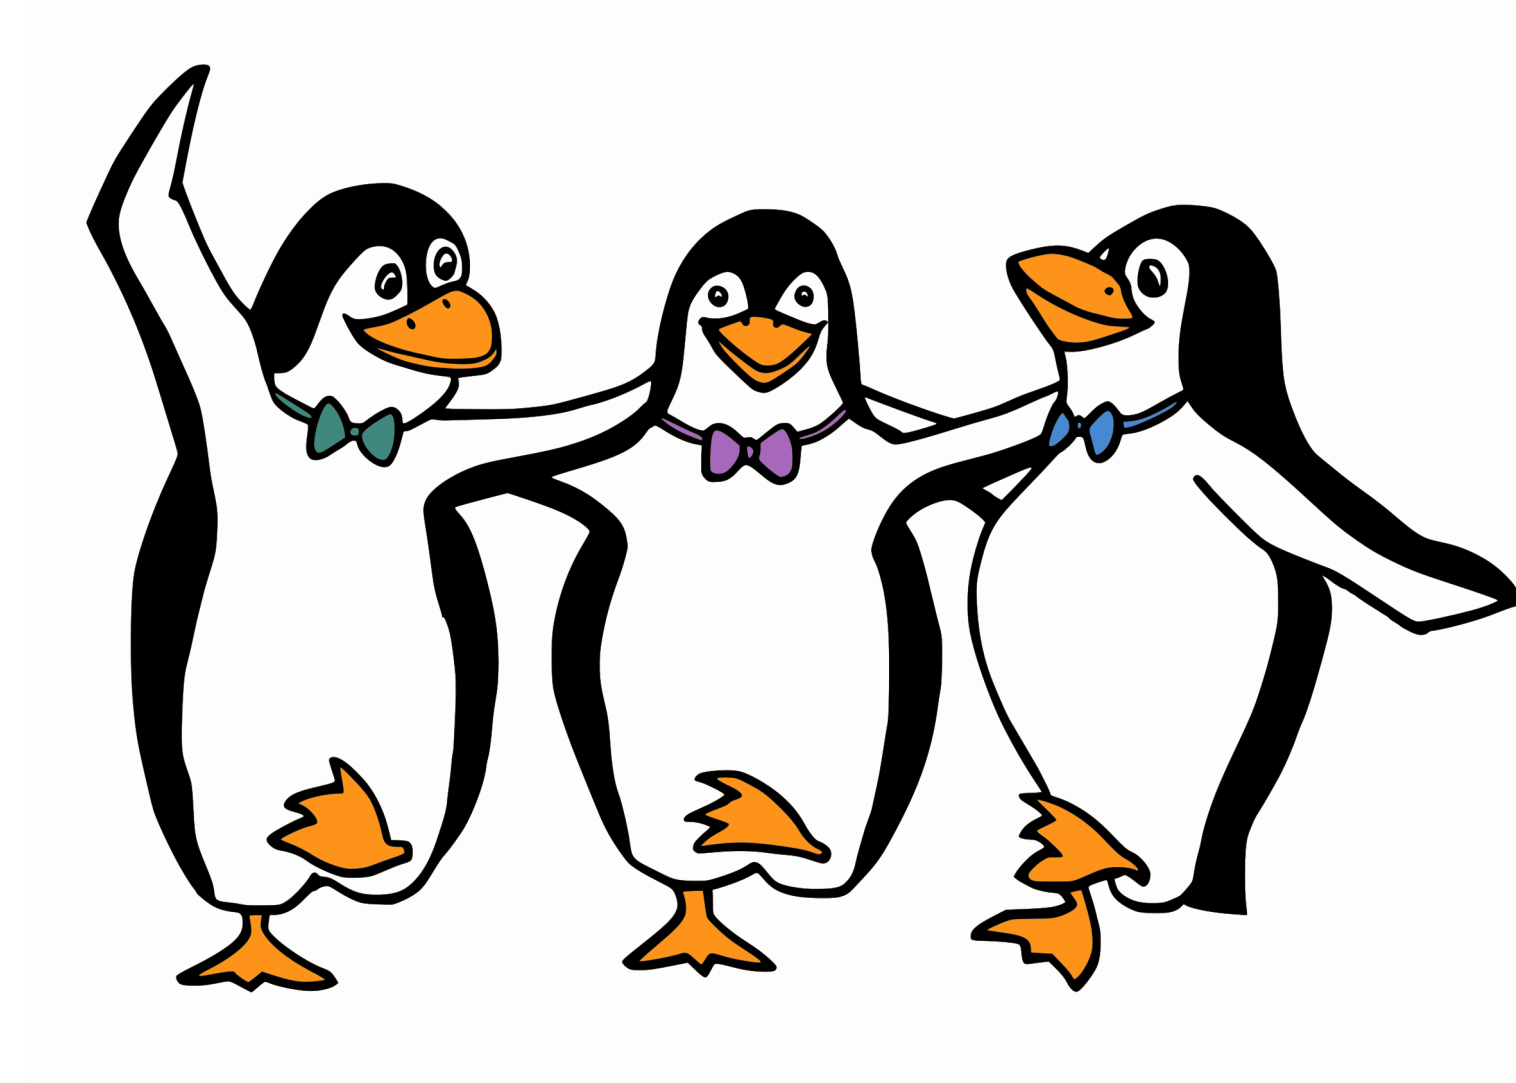

Questions

level: easy-intermediate

- Which island do we have the least number of penguins?
- How many female and how many male penguins do we have?
- Do male penguins have higher body mass than female penguins on average?
- Which specie seems like the most talkative?
 - => bill length

- Imagine there is a horon competition in Antartica

level : intermediate - hard

- all the penguins from different islands are invited. All penguins decide to join
- They are opening their flippers 90 deg
- Then they go in line to get the horon position
- What is the approximate length (in meters) of each line created by the penguins in the 3 islands?

Questions

level: easy-intermediate

- Which island do we have the least number of penguins?
- How many female and how many male penguins do we have?
- Do male penguins have higher body mass than female penguins on average?
- Which specie seems like the most talkative?
 - => bill length

level : intermediate - hard

- Imagine there is a horon competition in Antartica

- all the penguins from different islands are invited. All penguins decide to join

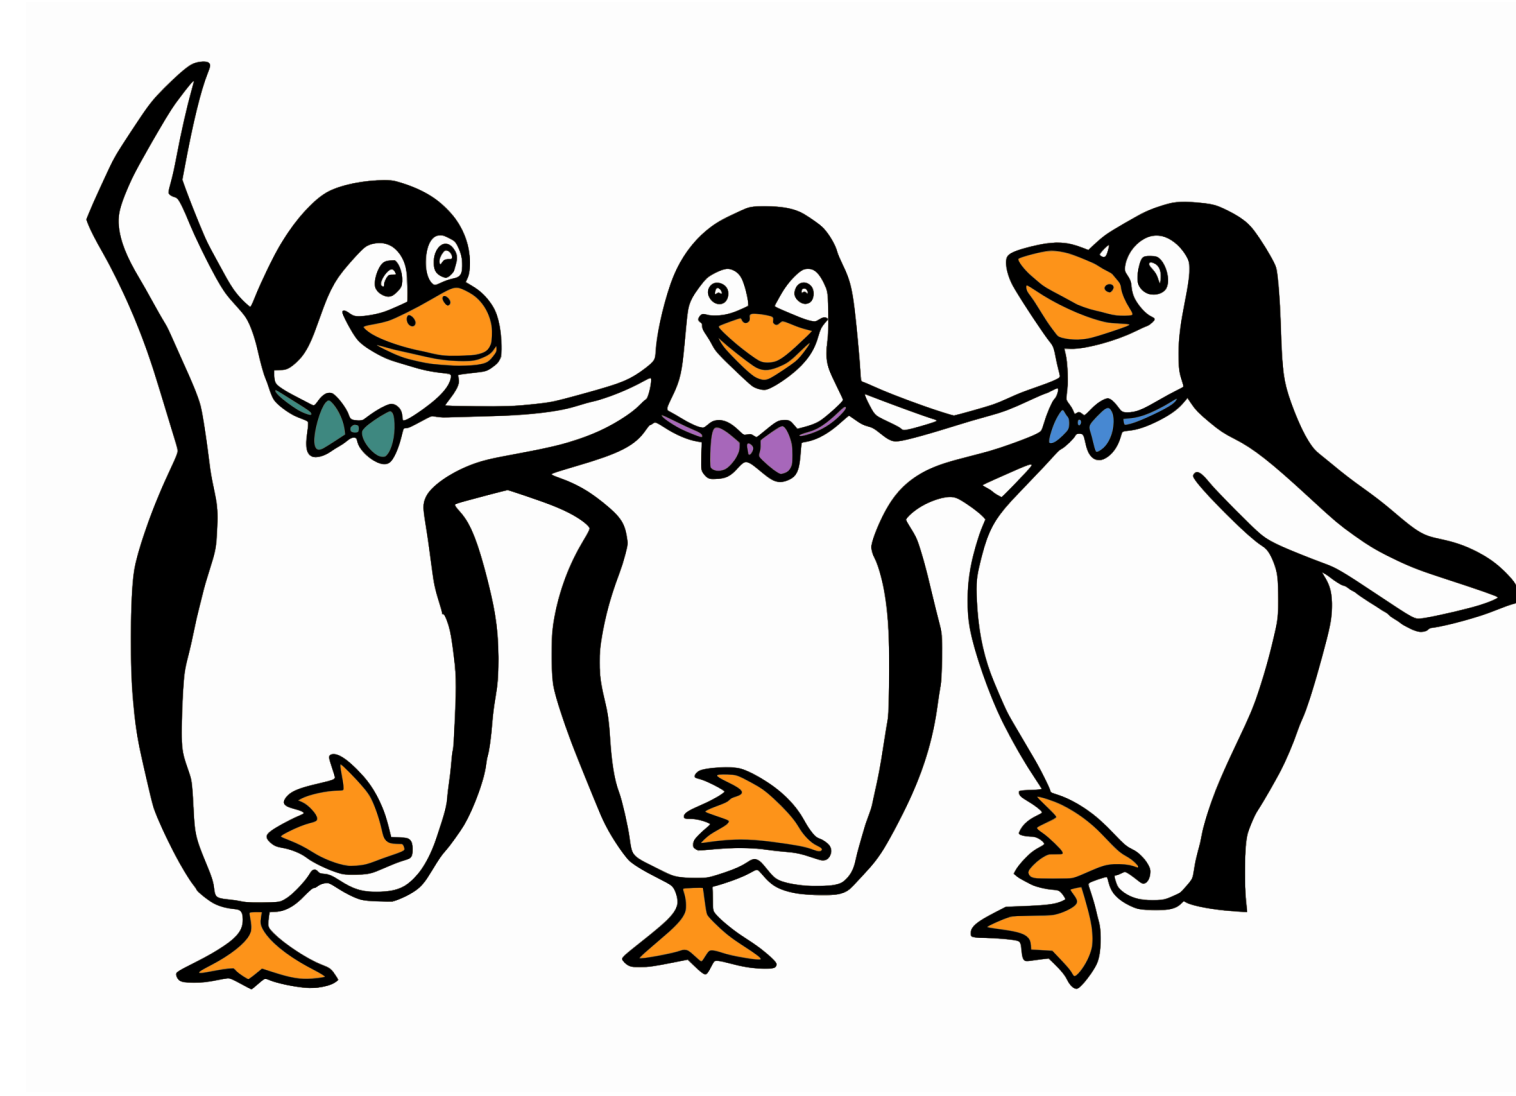

What is my row?

- They are opening their flippers 90 deg

- Then they go in line to get the horon position

What is my values? => what is the statistic

- What is the approximate length (in meters) of each line created by the penguins in the 3 islands?

Questions

level : intermediate

- How many female penguins do we have from each island?

Questions

level : intermediate

- How many female penguins do we have from each island?
 - What is the % of females in Biscoe island?

Questions

level : intermediate

- How many female penguins do we have from each island?
 - What is the % of females in Biscoe island?
- Do all species exist in all islands?

Questions

level : intermediate

- How many female penguins do we have from each island?
 - What is the % of females in Biscoe island?
- Do all species exist in all islands?
- How many Gentoo female penguins are observed from the Biscoe island?

Questions

level : intermediate

- How many female penguins do we have from each island?
 - What is the % of females in Biscoe island?
- Do all species exist in all islands?
- How many Gentoo female penguins are observed from the Biscoe island?
 - What percent do they make up of all observations?

Questions

level : intermediate

- How many female penguins do we have from each island?
 - What is the % of females in Biscoe island?
- Do all species exist in all islands?
- How many Gentoo female penguins are observed from the Biscoe island?
 - What percent do they make up of all observations?
- What is the average bill depth of male Adelie species?

Questions

level : intermediate

- How many female penguins do we have from each island?
 - What is the % of females in Biscoe island?
- Do all species exist in all islands?
- How many Gentoo female penguins are observed from the Biscoe island?
 - What percent do they make up of all observations?
- What is the average bill depth of male Adelie species?
- Does body mass of female penguins differ in each island?

Questions

level : hard

- Do penguins with higher flipper length have higher body mass?

Questions

level : hard

- Do penguins with higher flipper length have higher body mass?
 - Is there a relation? => Scatterplot

Questions

level : hard

- Do penguins with higher flipper length have higher body mass?
 - Is there a relation? => Scatterplot
- Is this true for all species? Plot this relationship for all species.

Questions

level : hard

- Do penguins with higher flipper length have higher body mass?
 - Is there a relation? => Scatterplot
- Is this true for all species? Plot this relationship for all species.
- Show the following information in one table:

Questions

level : hard

- Do penguins with higher flipper length have higher body mass?
 - Is there a relation? => Scatterplot
- Is this true for all species? Plot this relationship for all species.
- Show the following information in one table:
 - The number of penguins coming from each island

Questions

level : hard

- Do penguins with higher flipper length have higher body mass?
 - Is there a relation? => Scatterplot
- Is this true for all species? Plot this relationship for all species.
- Show the following information in one table:
 - The number of penguins coming from each island
 - The count of species of penguins in each island

Questions

level : hard

- Do penguins with higher flipper length have higher body mass?
 - Is there a relation? => Scatterplot
- Is this true for all species? Plot this relationship for all species.
- Show the following information in one table:
 - The number of penguins coming from each island
 - The count of species of penguins in each island
 - The average body mass of them
