Discovering the palmer penguins

CHINSTRAP!

GENTOO!

ADÉLIE!

Recitation week 1

19/10/2023

Res. Asst. Mücahit ZOR

@allison_horst

QUESTIONS
**warming up…**

- What are the variables?
  - Their types?

QUESTIONS
warming up…

- What are the variables?

  - Their types?

- What is the number of observations?

Know your penguins!

Adelie Gentoo Chinstrap

Bill length

Bill depth

Body Parts of Penguin

head

bill

eye

flipper

body

webbed feet

BlueGio '20

QUESTIONS
warming up…

- What are the variables?

  - Their types?

- What is the number of observation?

- What are the key statistics(range, mean, median, standard deviation) of the numeric variables?

QUESTIONS
warming up…

- What are the variables?

  - Their types?

- What is the number of observation?

- What are the key statistics(range, mean, median, standard deviation) of the numeric variables?

- What are the levels(unique values) of categorical variables?

QUESTIONS
level: easy

- How many penguins do we have?

QUESTIONS
level: easy

- How many penguins do we have?

- Which specie has the highest number of penguins?

CHINSTRAP! GENTOO! ADÉLIE!

QUESTIONS
level: easy

- How many penguins do we have?

- Which specie has the highest number of penguins?

  - Show the data as a pivot table

QUESTIONS
level: easy

- How many penguins do we have?

- Which specie has the highest number of penguins?

  - Show the data as a pivot table

    - Where to put what?

      - Rows: Main variable you are interested in

QUESTIONS
level: easy

- How many penguins do we have?

- Which specie has the highest number of penguins?

  - Show the data as a pivot table

    - Where to put what?

      - Rows: Main variable you are interested in

      - Values: The statistics you are interested in

QUESTIONS
level: easy

- How many penguins do we have?

- Which specie has the highest number of penguins?

  - Show the data as a pivot table

    - Where to put what?

      - Rows: Main variable you are interested in

      - Values: The statistics you are interested in

      - Columns: Breakdown variables (breakdown of the variable in rows for other variables)

QUESTIONS
level: easy

- How many penguins do we have?

- Which specie has the highest number of penguins?

  - Show the data as a pivot table

    - Where to put what?

      - Rows: Main variable you are interested in

      - Values: The statistics you are interested in

      - Columns: Breakdown variables (breakdown of the variable in rows for other variables)

      - Filters: filtering variable

Questions
level: easy-intermediate

- Which island do we have the least number of penguins?

Questions
level: easy-intermediate

- Which island do we have the least number of penguins?

- How many female and how many male penguins do we have?
Questions
level: easy-intermediate

- Which island do we have the least number of penguins?

- How many female and how many male penguins do we have?

- Do male penguins have higher body mass than female penguins on average?

Questions

level: easy-intermediate

Body Parts of Penguin

- Which island do we have the least number of penguins?

- How many female and how many male penguins do we have?

- Do male penguins have higher body mass than female penguins on average?

- Which specie seems like the most talkative?

  - => bill length

Questions
level: easy-intermediate

- Which island do we have the least number of penguins?

- How many female and how many male penguins do we have?

- Do male penguins have higher body mass than female penguins on average?

- Which specie seems like the most talkative?

  - => bill length

- Imagine there is a horon competition in Antartica level : intermediate - hard
Questions

level: easy-intermediate

- Which island do we have the least number of penguins?

- How many female and how many male penguins do we have?

- Do male penguins have higher body mass than female penguins on average?

- Which specie seems like the most talkative?

    - => bill length

level : intermediate - hard

- Imagine there is a horon competition in Antartica

    - all the penguins from different islands are invited. All penguins decide to join
    - They are opening their flippers 90 deg

    - Then they go in line to get the horon position

    - What is the approximate length (in meters) of each line created by the penguins in the 3 islands?

Questions

level: easy-intermediate

- Which island do we have the least number of penguins?

- How many female and how many male penguins do we have?

- Do male penguins have higher body mass than female penguins on average?

- Which specie seems like the most talkative?

  - => bill length

- Imagine there is a horon competition in Antartica

  - all the penguins from different islands are invited. All penguins decide to join

  - They are opening their flippers 90 deg

  - Then they go in line to get the horon position

  - What is the approximate length (in meters) of each line created by the penguins in the 3 islands?

level : intermediate - hard

What is my row?

What is my values? => what is the statistic

Questions
level : intermediate

- How many female penguins do we have from each island?

Questions
level : intermediate

- How many female penguins do we have from each island?

  - What is the % of females in Biscoe island?

Questions
level : intermediate

- How many female penguins do we have from each island?

  - What is the % of females in Biscoe island?

- Do all species exist in all islands?

Questions
level : intermediate

- How many female penguins do we have from each island?

  - What is the % of females in Biscoe island?

- Do all species exist in all islands?

- How many Gentoo female penguins are observed from the Biscoe island?

Questions

level : intermediate

- How many female penguins do we have from each island?

  - What is the % of females in Biscoe island?

- Do all species exist in all islands?

- How many Gentoo female penguins are observed from the Biscoe island?

  - What percent do they make up of all observations?

Questions
level : intermediate

- How many female penguins do we have from each island?

  - What is the % of females in Biscoe island?

- Do all species exist in all islands?

- How many Gentoo female penguins are observed from the Biscoe island?

  - What percent do they make up of all observations?

- What is the average bill depth of male Adelie species?

Questions
level : intermediate

- How many female penguins do we have from each island?

  - What is the % of females in Biscoe island?

- Do all species exist in all islands?

- How many Gentoo female penguins are observed from the Biscoe island?

  - What percent do they make up of all observations?

- What is the average bill depth of male Adelie species?

- Does body mass of female penguins differ in each island?

Questions

level : hard

- Do penguins with higher flipper length have higher body mass?

Questions
level : hard

- Do penguins with higher flipper length have higher body mass?

  - Is there a relation? => Scatterplot

Questions
level : hard

- Do penguins with higher flipper length have higher body mass?

  - Is there a relation? => Scatterplot

- Is this true for all species? Plot this relationship for all species.

Questions

level : hard

- Do penguins with higher flipper length have higher body mass?

  - Is there a relation? => Scatterplot

- Is this true for all species? Plot this relationship for all species.

- Show the following information in one table:

Questions
level : hard

- Do penguins with higher flipper length have higher body mass?

  - Is there a relation? => Scatterplot

- Is this true for all species? Plot this relationship for all species.

- Show the following information in one table:

  - The number of penguins coming from each island

Questions
level : hard

- Do penguins with higher flipper length have higher body mass?

  - Is there a relation? => Scatterplot

- Is this true for all species? Plot this relationship for all species.

- Show the following information in one table:

  - The number of penguins coming from each island

  - The count of species of penguins in each island

Questions
level : hard

- Do penguins with higher flipper length have higher body mass?

  - Is there a relation? => Scatterplot

- Is this true for all species? Plot this relationship for all species.

- Show the following information in one table:

  - The number of penguins coming from each island

  - The count of species of penguins in each island

  - The average body mass of them
